NEWS\_PDF\_AUTHOR: Mamba

NEWS\_PDF\_DATE: 2016/1/6 18:00:00

The "About" module is for adding "About Us" section to your Website. It allows adding a multi-page section, as well as external links.

It was originally developed by Susheng Yang (ezsky) and Mengjue Shao (magic.shao).

It is a simple module, but it could be quite useful, since it is very easy to use.

#### **REQUIREMENTS:**

- **PHP 5.5+** (the new official minimum PHP version for XOOPS. It might work on PHP 5.3.7+, but we don't test anymore on it)
- [XOOPS 2.5.7.2](#) (if you don't have it, you should update TODAY)

**DOWNLOAD:** [About repository on GitHub](#)

**CONTRIBUTING:** please fork [About module on GitHub](#) and submit your improvements there

**BUGS/ISSUES:** [GitHub Issues](#)

**TUTORIAL:** Available on [GitBooks](#). It is in the early stages, and we need your help to make useful

To help, you can fork the [Tutorial from GitHub](#) and provide you submissions there

To check out other XOOPS Tutorials, please visit [XOOPS section on GitBooks](#)
