I'm very pleased to announce the availability of [OnFocus 1.2](#), an advanced XOOPS premium theme.

[OnFocus](#) is a magazine styled theme, based on [xThemes](#) and [Common Utilities](#), and fully integrated with MyWords. This theme has a lot of features that allows to create stunning web sites easily.

Features:

- Fully responsive.
- Highly configurable
- Based on bootstrap 3
- Integrated with MyWords and xThemes
- Support for video posts format (forget modules to handle videos)
- Customizable news ticker
- Customizable posts slider
- Customizable navigation bars (topbar and main menu)
- Multilevel main navigation bar
- Popular box posts for home page
- Featured posts in home page
- 12+ homepage layouts combinations
- Color customization in settings panel
- Autoformat and autocrop images
- 4 special blocks: twitter block, advanced posts, sidebar posts and about block.
- Supports Google Custom Search and standard Xoops Search.
- Redesigned templates for system modules (login, search, account, etc.)
- Login box in navigation bar
- Account box in navigation bar
- A stunning landing page to use with [QuickPages](#)
- Four custom templates for QuickPages
- Support for custom backgrounds

... and more.

You can find more information and purchase options directly in [Xoopstastic.com](#).
