MyMenus 1.52 Final, with Drag & Drop, Is Released - Modules

NEWS_PDF_AUTHOR: Mamba

NEWS_PDF_DATE: 2016/9/13 13:50:00

MyMenus 1.52 Final for XOOPS 2.5.8+ and PHP 5.5+ (incl. PHP 7) has been released - this release fixes issues with static methods discovered by Goffy.

Thanks to **Bleekk** and the XOOPS Germany team, we have now "Drag & Drop" incorporated into MyMenus Module.

In the picture above, you can see the links as bars that you can drag around to set the sorting, as well as the sub-links:

Also incorporated are changes from **Luciorota**, who added an option to use skins from the theme.

As always, it is great to see when developers are working as team and are helping each other! 😛
