

A little fix for 1.3.9 - Developer News

NEWS_PDF_AUTHOR: onokazu

NEWS_PDF_DATE: 2003/3/26 19:13:50

If you have encountered problem after upgrading to 1.3.9 or making a fresh install of 1.3.9, please try the fix below:

in class/xoopsblock.php, line 24, if the code looks like below:

```
//include_once(XOOPS_ROOT_PATH."/class/xoopsmodule.php");
```

change the above code to

```
include_once(XOOPS_ROOT_PATH."/class/xoopsmodule.php");
```

If you have encountered problem after upgrading to 1.3.9 or making a fresh install of 1.3.9, please try the fix below:

in class/xoopsblock.php, line 24, if the code looks like below:

```
