Centerpoint Station (version 2.0) is taking off! Originally powered by PHP-Nuke, I decided to migrate over to XOOPS, and am currently running X2 RC3 on the site.

The one thing I think that makes CS unique from other Star Wars sites is its "free-for-all" captioning. Unlike any other Star Wars community site I've seen, EVERYONE'S caption gets seen on CS.

So, if you're a Star Wars fan, please come check out my site. Thank you!
