hiweed-blue theme for xoops 2.x. The original version is in Chinese and released by hiweed.com. I translated it into English and made some small changes with the permission of hiweed.com. to see what it looks like, visit <a href="http://thesongs.net/xoops">http://thesongs.net/xoops</a> and choose the hiweedblue theme. you can also edit topmenu.js inside the package to suit your needs.

it's really a nice theme. Download it here. enjoy it!
