
Forum Hack - Private Forum Behaviors Release 2.0.2 - Hacks

Posted by: regen_r8

Posted on: : 2003/4/27 16:53:19

All,

I have re-worked my private forum hack again for Xoops 2.0.2.

Here are the behaviors:

- 1) Assign rights to private forums by user groups
- 2) Allow searches, views, to display private forum posts for those who have rights only.
- 3) Optional block configuration to display private forum posts and include poster information.

You can [Download Here!](#)

Please report bugs on [The Regenerate Web](#) forums.

Instructions are in a file called hack.html - I hope that some of you find this useful.
