

Tiny Content v1.0 for Xoops 2.0.x - XOOPS

NEWS\_PDF\_AUTHOR: chapi

NEWS\_PDF\_DATE: 2003/4/27 16:53:31

I have built a Tiny Content Module for Xoops 2.0.x. You can create content with the **xoops built-in editor**. Also you can add html files.

You can download it in the Downloadarea here at [xoops.org](https://xoops.org). In the package is a "readme.txt" with more instructions. Please give me feedback if you like it.
