NEWS_PDF_DATE: 2003/5/15 14:08:43

Work on the new Xoops Developers Site is well on the way and as things progress we will be asking all who are interested for participation in one way or another, at the moment we are compiling a list of partners to be used as support sites in our Partner List.

If you have a site that is an active support site for Themes, Modules, Hacks, Language translation or anything Xoops 2 then we wants you on our list, this includes non-English sites as well as this project is global and we hope to develop multi-lingual modules and themes for release.

Please take a moment to either register with The Xoops 2 Developers Site and post your partner request on site or PM your details to either myself (Neon), Catz or Herko with full details for inclusion.

Thank you
