Was published UPLOADER v 1.1 NOW ENGLEESH & russian 2.
Download
Demo (only for registered)
Adapted for xoops 2.0.2 and for 2.0.3 to

work in xoops 1.x but thereis some problems with themes.
4 1.x download uploader v1.0 from my sites download page (The English language files take them from UPLOADER 1.1, soon I do it myself)

This is a some one...
User can give description to file.
Download counter.
User can sort files by name, upload date, rating.
Administrator can show own messages.
Filename length limit.
Autodeleting files older than NN days.
Administrator account to delete files
Possibility to view contents of ZIP archives without downloading.
Now this module is finally adapted to XOOPS 2.0.2, removal{distance} of files (administration) works, the button for transition in administration from the main page, ??? and the rest ????????? is added.
==========
instalation:
copy UPLOADER files to u xoops modules folder , edit conf.php. and so on.
