

Spotlight module for xoops 2.0 - Modules

NEWS_PDF_AUTHOR: Herko

NEWS_PDF_DATE: 2003/6/23 20:37:05

Myself and Dawilby have modified Kuht.it's excellent Spotlight module for xoops 2.0.x. This module creates a block where a given news article is put in the spotlight: with an optional extra image the intro text is shown. Demo and download on the xoops module development team website: <http://www.modules.xoops2.com>.

This module has the following features:

- Create a block displaying the intro text of a given news article
- Add a custom image to the spotlighted article block
- Control look and feel through block template
- Display other recent news below spotlighted item
- Admin length of titles through block admin
- Admin order and number of other recent news items displayed.
