TinyContent v1.2 released - Modules

NEWS_PDF_AUTHOR: chapi

NEWS_PDF_DATE: 2003/7/6 16:52:25

TinyContent v1.2 is now available for Download. The look of your content can be controlled with templates now! Also I have fixed minor bugs and cleaned up the code a little (thx to kazu in this case).

If you get in trouble with TinyContent, you should have a look at the MiniGuide from hsalazar! He describes perfectly how to use TinyContent!
