We now require a documentation team leader.

Unfortunately our current team leader Ronhab has had to move aside due to other commitments and we wish him well on these.

If you are willing to put in a lot of time, hard work and blood (well not this much) to making this part of X-Mode a success. Feel you can lead and inspire others? Then please contact myself (Catzwolf) by PM or Email.

We would prefer to have someone who has experience in this field, but it is not essential.
