Agenda-X is a flexible and feature riche calendar application for Xoops with Smarty templates, Category, Search, Image upload, day-week-month-flat views and more. I would recommend for using in entreprise and community websites.

Agenda-X has a multi-function MiniCal block displaying:

- a mini-calendar, dates with events are highlighted with link.
- an image, it could be dynamic by using php script.
- a random event for the current day if there's any.
- if not, a random event of the next day to up to 2 month.

Agenda-X has also:

- 7 Day upcoming events block
- 30 Day upcoming events block

Layout and graphics of Agenda-X are entirely controllable by templates and CSS.

Download and demo:
