Yes, Finally we have it. The version which is awaiting for in long time,
It is available for download now.

What's new in this version:

Using the final version of Invision Power Board 1.2 Final

Can be upgraded for IPB module 1.1.3

Fixed some bugs.

Include new features:

Can Install and remove IPBM from XoopsCP.

Integrate profile of XOOPS and IPBM.

Auto generation Skin from IPB origin to work with IPBM.

Groups user permission is fixed to work with both IPBM and XOOPS

for add user in separating XOOPS or IPBM (only work with
default groups of IPBM and XOOPS).

Auto login after registration (Validate or not)/Resend password/ from IPBM.
