NEWS_PDF_DATE: 2003/8/29 7:07:58

Due to the high request, the German Developer Site myXoopsforge will:

- a) move to its own server, only for this site
- b) include more features for developers and their projects
- c) get an english information page for the non german speaking community

The site will be available next week again under the known URI's:

<http://www.myxoopsforge.de>

<http://www.myxoopsforge.org>

<http://www.myxoopsforge.info>

<http://www.myxoopsforge.org>

Hosted projects at the moment:

xoscommerce - the Xoops module of osCommerce

xoopschat - Chat module for Xoops

xoopswap - Wap module for Xoops

shoutcast - a shoutcast radio module

xoops Supermodule - a module with lots of features 😊

myxoopsforge - a Sourceforge Clone for Xoops 2.0.x used on the site
